

## Rosehaven Homes celebrates completing The Randall Residences in Oakville!

By Newinhomes on Nov 08, 2019

Oakville's most prestigious address, The Randall Residences by [Rosehaven Homes](#), is now complete!

The Rosehaven team recently hosted homeowners for a tour of the common areas and other building amenities to celebrate the completion of the luxury condo. Attendees were treated to hors d'oeuvres from Ristorante Sotto Sotto, which is located at The Randall, and everyone toured the premium fitness facility, Nova Health Club, also onsite. The Oakville Symphony Orchestra set the mood with some sophisticated tunes.

The lobby at The Randall features soaring ceilings and stunning granite and marble tile. When you walk into the building, you know that it's something special. There's also a 2,600 square foot rooftop terrace with a water feature, shady pavillion, a barbecue area, and views of Lake Ontario.

Inspired by Paris, architect Richard Wengle took a Beaux Arts approach to the design of The Randall. The interiors were designed by renowned designer Ferris Rafauli, who emphasized outward opulence and dramatic elegance.

"We're thrilled to have delivered Oakville's most prestigious address and to celebrate such a momentous day with our exclusive homeowners," says Rosehaven Homes' President Marco Guglietti. "We were very selective when choosing our retail partners and were able to secure the best-in-class businesses like Sotto Sotto and Nova Health Club, who will not only benefit our residents, downtown Oakville, but also help make The Randall a true landmark destination in Oakville."

Located at Reynolds and Randall St., steps from Lakeshore Rd. East, The Randall is within walking distance of the best that Oakville's waterfront has to offer, including shopping, cafes, restaurants, and of course the winding trails along Lake Ontario.

The neighbourhood is a top destination for anyone living in or around Oakville, and The Randall, along with Sotto Sotto and Nova Health Club, simply brings the area to an even higher level.
